

# VALIO EILA® SPECIALTY MILK POWDERS

## Valio Eila® specialty milk powders open new opportunities for the FoodBev industry

- Confectionery, ice cream, dairy, bakery, and other industries that rely on dairy ingredients benefit from Valio's unique expertise and wide portfolio to create new value-added products. Also excellent for nutritional supplements and special dietary applications.
- Valio Eila® specialty milk powders are manufactured from fresh Finnish milk using technology developed by Valio for an unchanged milk mineral composition and natural taste of milk.

With Valio specialty milk powders, we can help manufacturers develop different taste profiles and products full of all the wellness-boosting natural goodness consumer's desire:

Reduced sugar

Increased protein

Digestive wellness

Enhanced flavour

Our label-friendly, functional ingredients help overcome formulation challenges as well as keep the ingredient lists short and simple. Also, easy to replace standard fresh milk or milk powder in recipes.
